Tribander Tribe,

Ray N5NAV Taylor's wife of 56 years, Ms. Alice, passed away the morning of Sept 17. This is really tough stuff for Ray. So let's keep our prayers in his direction so as to assist him with getting through the days ahead. I am sure cards, etc. will be appreciated. Ray's address is good on QRZ.

Uncle James turned 85 on Sunday! When you hear him, be sure and wish him a happy B'day.

Jay Lent KE5VHO has been talking to a few General license hams and have generated some interest in an Extra prep study-group. So far he has 6 people that are interested. A few more folks joining would make a run at a regular group. The tentative plan is to have on-air meetings with a few face to face meetings, as necessary. The contact e-mail is KE5VHO@arrl.net If interested parties would e-mail Jay, he would be more than willing to update them on the progress of the study-group.

Just a reminder that the Texas QSO Party is coming up; September 26 and 27.
In the Texas QSO Party, stations will be trying to contact as many different Texas stations as they can, and in as many different Texas counties. Texas stations may contact anyone, anywhere. If you haven't participated before, you should know that it's a whole lotta fun.
Several stations will be participating HF mobile, activating a number of different counties along their route. Others operate from the home shack, fixed portable "Field Day" style in a rare county, or with a group in a friend's shack in a multi-operator effort.
The rules in detail are available on the Texas QSO Party web site at: <http://txqp.net/>

The Austin Amateur Radio Club is committed to email address security and battling SPAM.
We will do everything we can to assure mass-email addresses are suppressed (BCC'd) and that published email addresses will be "munged" upon request. mungification: at=@ dot=. Get it?

Unfortunately, the SwapNet Newsletter contains numerous components that are "graded" as SPAM, causing automatic filters to engage, deleting without recipient's (your) knowledge or permission. Adding the source email address to your contact list may help but consult your ISP for "whitelisting" details.

List owners, sysops and frequent info-emailers:

Email is a powerful tool- sent, received ...and intercepted...

e-dress harvesters glean your info from clueless people you probably know and Love!

SPAMbot-recognizable patterns (jokes, gossip, "poli-ticks", whatever) and large "TO:" headers are -prime-targets as they spend cyberspace time on who-knows-how-many hard drives & caches. Please try to introduce this concept to the "mass unwashed"...

Avoid alienating these otherwise well-meaning users. They will often respond to any criticism by simply deleting you from their "Joke/Buddy list". While this might have the desired end effect, remember: "Keep your friends close but your enemies closer".

Forwarding ANYTHING to "Everyone You Know!!!", propagating ignorance/hate mongering emails (especially w/o consulting www.Snopes.com), not stripping "TO:" headers, indiscriminate clicking of unverified/"unsubscribe me" links and responding to unsolicited emails (sheesh, how many misplaced Royal Fortunes can you launder in a week?) all indicate cluelessness and contribute to the problem. Please try to explain this to the "mass unwashed".

After a few hand-held trips to www.Snopes.com, e-education, e-encouragement and polite (earnest but stern) warnings, Take Action! Introduce repeat offenders to www.spamcop.net/, "BCC-ing", assist them to "update" their address book, in extreme circumstances, remove them from sensitive distributions and, if continued, invoke root privs and (insert unprintable e-penance here).

To support the SwapNet Newsletter, club repeaters, loaner hardware, Ham classes and other things AARC is up to, please join us and get involved!!

If you're not an ARRL member, AARC will apply \$15 towards your AARC club dues if you sign up for first-time ARRL membership through the club!

Take advantage of dual signup, save money, join ARRL and AARC simultaneously!

The Have & Want listing below is generated from a 2m voice "SwapNet" held every Sunday at 9PM on the 146.940 repeater in Austin, TX- an AARC/ARO tradition since 1974!

Newest postings appear near each list end, float up and expire after six weeks.

Actual on-air Net participation is preferred but SwapNet Newsletter updates can be emailed to: n5mnw@arrl.net. Along with a short description of the item(s), be sure to include your name, callsign, phone number/email and an asking price.

We'd like for the Austin SwapNet to be primarily an Amateur Radio Swap List. Items for sale should be actual Amateur Radio equipment or -directly- related. While most Radio, Electronic, Computer & Test Equipment is acceptable, listing an auto, RV or house because it has (or could have) Ham gear in it is a tad questionable. NCS reserves the right to skip any on-air listing if they feel it would compromise their license status...

SwapNet is not (and does not claim to be) in competition with any vehicle- Ebay, QRZ, Eham, Craigslist, etc. This list encourages Austin locals to comfortably trade into and out of ham gear, period! We do think the personal touch of an approachable, experienced team of AARC Elmers and NCS's makes for a value-added experience.

It should go w/o saying, but AARC assumes -NO- liability for 3rd party items. Be sure to ask all pertinent questions before entering into -any- purchase or exchange.

Please feel free to copy or forward as you wish, giving proper acks to AARC.
